WHO AM I

I'm former student of Kyiv Polytechnic Institute, Faculty of Informatics and Computer Science. Since school, I've been interested in web development and I've been learning with online courses and creating pet-projects. Since last year I work with crypto.

MY ADVANTAGES

- I understand CSS well, and I'm experienced in implementing complex layouts.
- I follow the updates of browsers, and if possible, use new CSS features.
- I understand how JavaScript works, and I'm experienced in pet-projects on Node.js.
- I don't use libraries if it is not necessary.
